Academic Credential

B.Sc. in Computer Science and Engineering **March 2018 – May 2023**
Bangladesh University of Engineering and Technology, Dhaka
CGPA: 3.69/4.00

Undergraduate Thesis

"On Detecting Malicious Code Injection by Monitoring Multi-level Container Activities"

Supervisors:

1. **Dr. Md. Shohrab Hossain**; Professor
   Department of Computer Science and Engineering,
   Bangladesh University of Engineering and Technology, Dhaka
2. **Dr. Suryadipta Majumder;** Assistant Professor
   Concordia Institute for Information Systems Engineering (CIISE),
   Concordia University, Canada.

Current Workplace

- Currently working as **programmer** at the IT department of **Grameen Bank** Head Office, Dhaka, Bangladesh.
- Also engaged in a research work with **Professor Dr. Tanzima Hashem** from Department of CSE, BUET. In this research, we are trying to detect dehydration using different deep learning models.

Research Interests

- Security and Privacy, Computer Networks, Machine Learning, Natural Language Processing.

Undergraduate Projects

- **Bangla Caption Generation for images (02/2023 – 03/2023)**
  - ✓ In this project, a new model is proposed and implemented that can generate Bangla caption for a given image. (https://github.com/Sizvy/Bangla-Caption-Generator-for-images.git)
- **Bangla Digit Recognition using CNN (01/2023 – 02/2023)**
  - ✓ This CNN model is built from scratch. The applied model showed 77% independent test accuracy and 91% validation accuracy. (https://github.com/Sizvy/Bangla-Digit-Recognition.git)
- **Memory Management in XV6 Operating System (11/2021 – 01/2022)**
  - ✓ This project is done under the **operating system** course. Two different paging

algorithms are implemented in this project. (https://github.com/Sizvy/Memory-Management-XV6.git)

- **Englishour (08/2022 – 10/2022)**
  - ✓ This is a software development project. Purpose of this project is to create a English Learning Platform for children.
    - **Frontend:** https://github.com/swapped004/englishour_FE.git
    - **Backend:** https://github.com/tawsifshahriar7/englishour-backend.git
- **TCP Libra (11/21 – 02/22)**
  - ✓ This is a congestion control algorithm implemented successfully in NS3. (https://github.com/Sizvy/Tcp-LIbra.git)

Technical Skills

Programming Languages: Assembly, C, C++, C#, Java, Python

Documentation and Presentation Tools: Latex, MS Office Suite

Software Development Framework: Node.js, React.js, Django, Javafx, .NET

DBMS Tools: Oracle, PostgreSQL

Network Simulation Tool: NS3

Computer Forensic Tools: Strace, Sysdig, Wireshark

Others: Kubernetes, Docker Container, git

Standardized Test Scores

Test of English as a Foreign Language (TOFEL) - 28th October, 2023

Total	Listening	Reading	Writing	Speaking
106	29	28	23	26

Honors and Awards

- **RISE Research Grant**, Bangladesh University of Engineering and Technology (February 14, 2023)
- **Four times** Regional Physics Olympiad and **One-time** National Physics Olympiad Winner (2014-2017).
